# 1. Before Using Ocrenger

## 1.1 Before using Ocrenger

**Quick Start Guide**

株式会社パスカル

Name: 山田太郎

Group: 営業1課

Ocrenger ID: 1234567890123

Authentication Key: \*\*\*

\*\*\* Please be careful not to lose this sheet. This sheet need for re-registration by mobile phone upgrade, etc.  
 \* You can register your account on multiple devices including smartphone, feature phone, PC, and tablet PC.  
 \* You do not use devices that can not connect Internet. Carrier cell phone bill will be charged by using Internet.

**Registration On App : From Smartphone and Tablet PC**

**By Using QR Code Quick Registration**

Can not use other QR Code  
 \* QR Code is a registered trademark of DENSO WAVE INCORPORATION

**For Users Who Use Ocrenger App First Time**

STEP.1 Download App By Scanning QR Code  
 After downloading app by scanning QR Code, launch app, and agree the Terms of Use.

STEP.2 Complete Registration!  
 Tap "Register from QR Code", and by scanning QR Code, registration will complete.

**For Users Who Can't Complete Registration**

Tap "Register from QR Code", and by scanning QR Code, registration will complete.

**For Users Who Already Using Ocrenger App**

STEP.1 Scan QR Code  
 Scan QR Code above

STEP.2 Complete Registration!  
 Tap "Register from QR Code", and by scanning QR Code, registration will complete.

**For Users Who Can't Register By QR Code**

1. Download App by searching "Ocrenger" on GooglePlay Store or AppStore.  
 2. Agree the Terms of Use.  
 3. Tap "Register Account".  
 4. Enter your ID and authentication key. And then tap "OK" or "Authenticate Account".  
 5. Your registration is completed when displayed your user name and status is "Active".

**Registration On Mail : From Feature Phone and PC (Available for smartphone too)**

**For Users Who Can Receive Messages By E-Mail**

STEP.1 Send a Blank Email  
 1. Scan QR Code on the left, and send a blank email.  
 2. Can not scan QR Code  
 Send a blank email as address "regist@mail.jp".  
 3. Require input of body  
 Send a email input body like "a".

STEP.2 Receive an Auto-Response Email  
 1. Receive an auto-response mail.  
 2. Tap the URL (http://) in body.  
 3. Can not receive an auto-response email  
 Add "regist@mail.jp" to the spam filter, and try again STEP.1.

STEP.3 Registration of Account  
 1. Read the Terms of Use carefully and tap "Agree".  
 2. Enter your Ocrenger ID that is written on this sheet, and tap "Registration".

STEP.4 Complete Registration!  
 3. Your registration is completed when you receive email about complete registration.

**Ocrenger Is Perfect For Grate Disasters**  
<https://user.ocrenger.jp/>

**FAQ**  
 Frequently Asked Questions  
 If you have any trouble about registration or using this system.

**Contact Ocrenger Help Desk**  
 Ask from that or inquiry form when FAQ won't solve.

**PASCAL**  
<https://www.pascal.co.jp/>

- You need your ID to make inquiries to our Help Desk, to request reregistration, or for many other purposes. Please be careful not to lose your Quick Start Guide (see the picture on the right).
- You can register your account on multiple devices with one ID, including cellphones, smartphones, and computers.
- \* You can also register by scanning the QR code for quick registration.
- \* Your devices need to be connected to the Internet.
- \* You don't need your ID to register for the Free Information Delivery Service.

## 1.2 If you don't know your ID

- If your administrator to reissue a Quick Start Guide.
- IDs are you have lost the registration completion email or your Quick Start Guide, request personal information. Pascal Corporation, including the Ocrenger Help Desk, does not have a record of IDs.
- \* You can confirm your ID on the Ocrenger User Site. (Please refer the page [Menu item Description](#)).

## 1.3 To be notified of message arrival

---

- Make necessary registration to be notified of message arrival.

If you have a smartphone (Android or iPhone), you can use the app, email, or both for registration.

\* It is not compulsory to register by both means.

\* It is recommended that you register both the account and email address(es) in case some trouble occurs such as delay in email transmission. As both the app and your email system will try to notify you of message arrival (ringtone, vibration, etc.), you will notice message arrival sooner.

① App: The Ocrenger App receives messages.

As the app adopts push technology to receive messages (Android adopts pull technology as well), it would not be affected by email transmission delay caused by a large-scale disaster.

② Email: You will receive emails notifying you of message arrival.

\* Your email address will not be displayed on the Ocrenger Administration Site.

- Bookmark the User Menu page on the Ocrenger User Site so that you can readily check and read messages, schedules, bulletin boards, etc.

\* As the website does not notify you of the arrival of messages, be sure to register your account on the app or register your email address(es).

## 1.4 If you no longer need to receive messages

---

When you no longer need to receive messages from your organization due to graduation, changing schools, retirement, etc., your organization (sender of messages) will delete your ID. You do not usually have to go through any procedures.

\* If you keep receiving messages, please unregister your email address(es) (Please refer the page [Deletion of Email Address](#)) or delete your account (Please refer the page [Deletion of Account\(Android\)](#) or [Deletion of Account\(iOS\)](#)).

## 1.5 When you changed your phones

---

- App users:

Download the Ocrenger App at Google Play or App Store and register your account.

\* You cannot transfer messages you received in the past to your new phone. Go to the User Menu on the Ocrenger User Site to read past messages.

- Email users:

If your email address has been changed, register your new email address referring to the Quick Start Guide (Please refer the page [Registration of Email Address](#)).

\* If your email address has not been changed, you don't have to register your email address again.

## 1.6 Ocrenger Help Desk

---

Phone number 0267-66-1383

**Japanese-speaking staff only**

Service hours: 9:00 – 17:00 on weekdays

E-Mail [ocrenger@pasmal.jp](mailto:ocrenger@pasmal.jp)

After-hours emails will be answered later during our service hours

## 2. How to Operate App (Android)

### 2.1 Downloading App

#### 2.1.1 Downloading App at Google Play

1. Enter "ocrenger" to search at Google Play and download the app.
  - \* You need to have a Google account to download the app.
  - \* The app is free.

You can also go to the downloading page by reading the QR code.

Google Play

#### 2.1.2 Updating App at Google Play

1. Launch the Google Play Store.

2. Tap your account in the top right corner of the screen.

3. Select "Manage apps & devices".

4. Tap "Update Available". A list of apps that can be updated is displayed.

5. Tap "Update" to the right of the ocrenger app. (If you don't see the ocrenger app, try connecting again in a few hours)

## 2.2 Manage account

### 2.2.1 Registration of Account

1. When downloading is complete, launch the app.

2. Confirm the details of the consent form and tap AGREE.

(2) 利用団体  
本サービスを連絡網システムとして利用する組織を  
います。

AGREE DISAGREE

3. If a notification dialog box appears, press "Allow".

Allow Ocrenger to send you notifications?

Allow

Don't allow

4. Tap "Register Account".

Select Service

Safety Confirmation/Communication System

Register Account

Register from QR Code

Registration for Free Information Delivery Services

\*Register to receive disaster-related information from local governments, email newsletters, etc. (free of charge).

5. Enter your ID and authentication key stated in your Quick Start Guide and tap OK.

Quick Start Guide		Ocrenger Corporation	
Name	Taro Yamada 様		
Group	Pascal Corporation		
Ocrenger ID	1234567890123	Authentication Key Alphabetical Characters (lowercase)	abc (エー・ビー・シー)

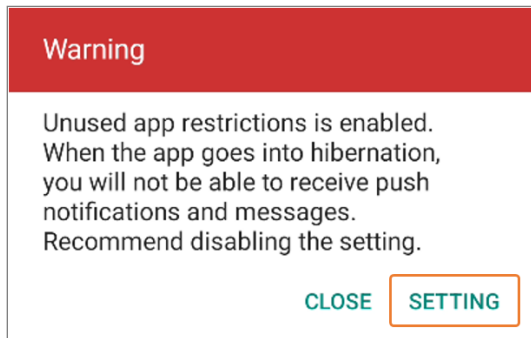

Register Account

Ocrenger ID

Authentication Key

CANCEL OK

6. If a dialog box regarding automatic hibernation settings appears, click "SETTING".

If you are using Android 11 or later, the system may automatically apply restrictions to apps that have not been used for a certain period of time.

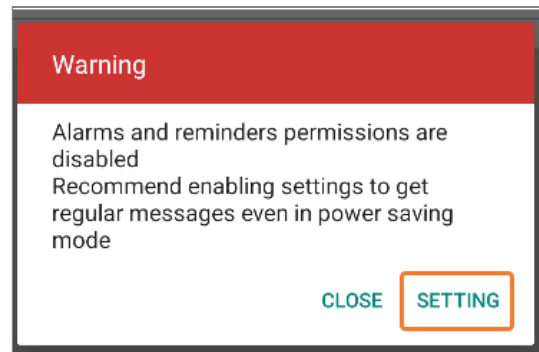

This setting may limit the background activity of this app, which may result in unexpected performance.

On the settings screen, look for a setting item called "Unused apps," "Unused app management," or something similar. (The name may vary depending on the model.) Switch this setting to "Disabled."

Please also see [How to disable auto-pause](#)

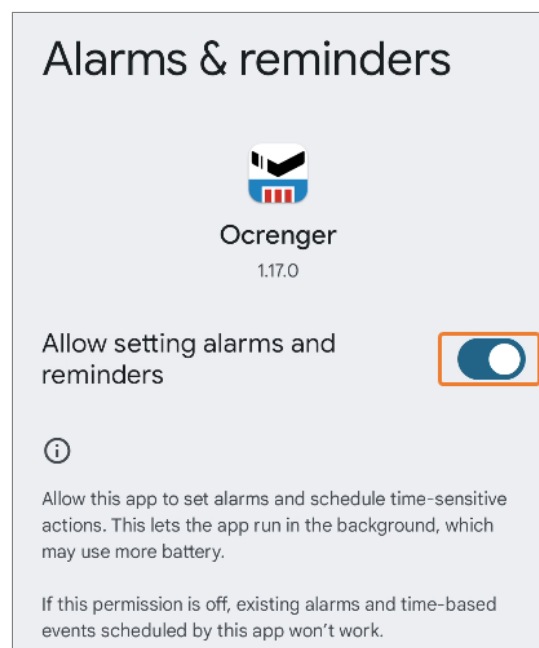

7. If a dialog box about alarm and reminder permissions appears, press "SETTING".

If you are using Android 13 or later, the system may automatically disable alarm and reminder permissions.

This setting may limit the background activity of this app, which may result in unexpected performance.

On the settings screen, switch the alarm and reminder permissions to "Allow."

Please also see [How to enable Alarm and Reminder permissions](#)

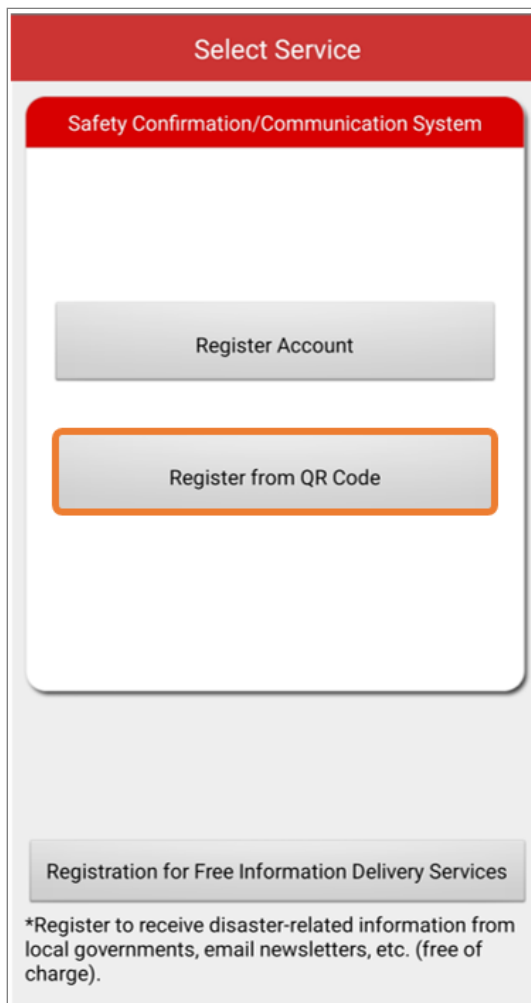

8. Your registration is complete when Active, the user name, etc. are displayed.

## 2.2.2 Registration of Account by Scanning QR Code

1. Tap "Register from QR Code".

2. Your smartphone's camera will be started.  
Please scan QRcode in white frame.

3. You can select QRcode from your picture's folder.

4. Your registration is complete when Active, the user name, etc. are displayed.

## 2.2.3 When "authentication NG" is displayed

The causes of the error message are as follows.

- Incorrect input.  
All ID/authentication keys must be entered in half-width characters.  
Please be careful of similar alphanumeric characters such as the number "1" alphabet "l (l)" and the number "0" alphabet "o (o)".
- "Google Play Developer Services" for Android application is not installed. Or, it has not been updated.  
Please install or update it from the Google Play.  
<https://play.google.com/store/apps/details?id=com.google.android.gms&hl=ja>
- You are not properly connected to the Internet.  
An Internet connection is used for account authentication. If the connection environment is poor, account information may not be obtained correctly.  
Please check if there are any problems with the signal conditions, such as antenna display on the device. Please also try switching between mobile communication and Wi-Fi.
- ID/authentication key has been changed or deleted.  
Please check with your organization administrator.

## 2.2.4 Registration for Free Information Delivery Service

It is a service for receiving email newsletters, disaster-related information from local

governments, etc. This is a free service for everyone.

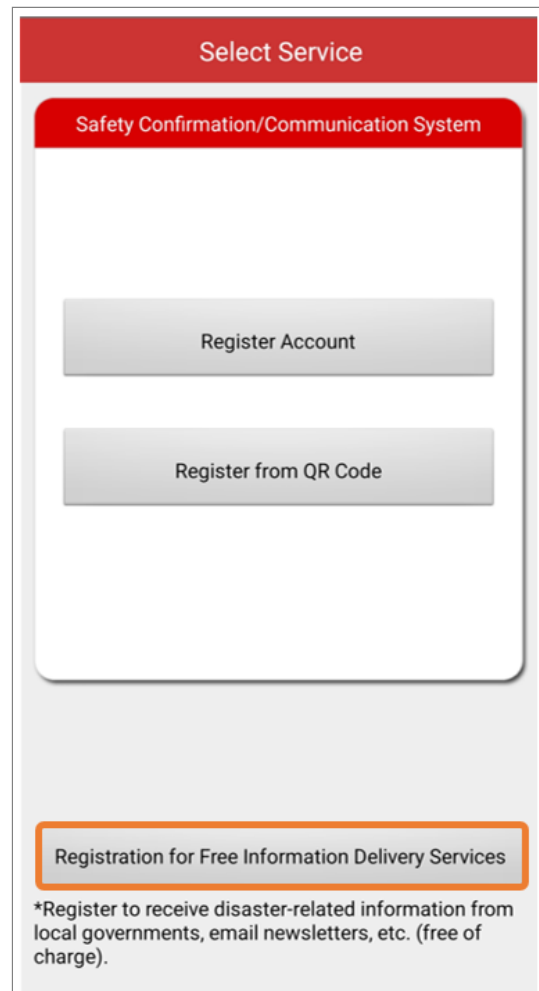

1. Tap Account/Menu in the app menu at the bottom of the screen.

2. Tap Account Registration.

3. Tap Registration for Free Information Delivery Services.

4. Enter a search keyword and tap Search.  
\* If you don't enter any keywords and tap

Search, all the available Free Information Delivery Services are displayed.

**Search for Free Information Delivery Services**

Enter keywords and press Search.

Examples: Shop name, serv

5. Tap Register for this service below the service you want to register for.

**Free Information Delivery Services**

**Search for Free Information Delivery Services**

Enter keywords and click Search.

Number of search results: 1

**オクレンジャー住民配信**  
CategoryPublic services

防災関連情報やイベント情報を配信します。  
是非ご登録ください。

6. After registering your information by selecting the relevant option in each box, tap Check Your Entries.

\* Information to be entered differs depending on the service.

**Back** **Free Information Delivery Services** **Close**

**掲示板への参加** どちらに参加するか選択してください。

☐ 参加しない  
☒ ○○会  
☐ △△会  
☐ □□会  
☐ ○○クラブ  
☐ △△クラブ

**氏名**

7. The page to confirm your entries will appear. Confirm the details and tap Register at the bottom of the screen.
- \* If you need to correct any of the information, tap Modify.

Are you sure you don't need to modify your entries?

8. After confirming the Terms of Use, tap Agree.

9. Your registration is complete when Active, the name of the service, etc. are displayed.

## 2.2.5 Registration of Additional Account

You can register multiple accounts in the app.

1. Tap Account/Menu in the app menu at the bottom of the screen.

2. Tap Account Registration.

3. Next steps, See [Registration of Account](#).

## 2.2.6 Deletion of Account

1. Tap Account/Menu in the app menu at the bottom of the screen.

2. Tap the icon of recycle bin for the account you want to delete.

3. If you are sure to delete, tap OK.  
If you want to cancel deletion, tap Cancel.

4. Deletion of the account is complete when the account no longer appears on the Accounts.

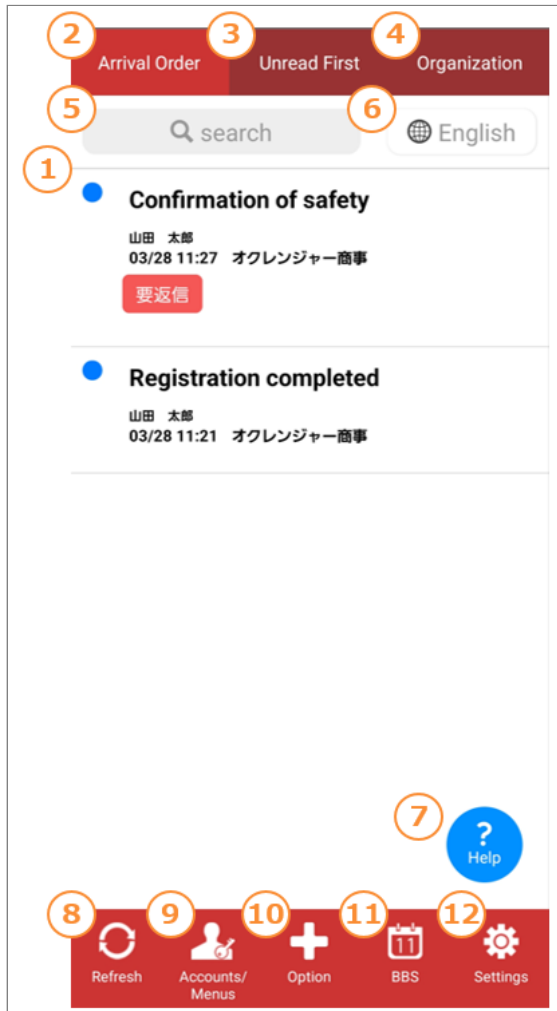

## 2.2.7 Invalidation of Account

1. Tap the button next to Active to invalidate the account. Ocrenger will no longer receive messages to the account. Tap the button next to Disabled to validate the account. The app will start receiving messages again.

## 2.3 Control item Description

### 2.3.1 Home Page

#### ① Timeline (message list)

A list of messages received is displayed.

\* Messages received after the registration of your account on the phone are displayed.

To read messages delivered before registration, tap Account/Menu > User Site > Messages.

\* You cannot read messages whose posting periods have expired or that have been deleted by an administrator.

#### ② Arrival Order

Tap it to list the messages in the order of arrival.

#### ③ Unread First

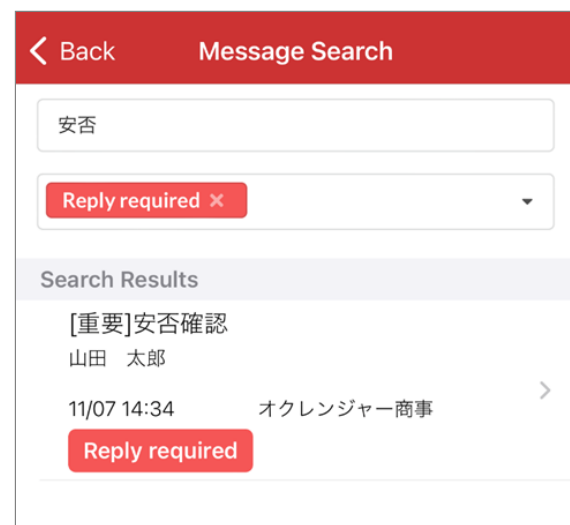

Tap it to list unread messages at the top of the list.

#### ④ Organization

Tap it to read messages from a particular organization.

#### ⑤ Message Search

Tap the button to display the search screen.

**Word :** Messages that contain the entered word in the subject, body, or attachment name will be displayed in the search results column.

**Tag :** Messages containing the selected tag will be displayed in the search results column.

\* If you select multiple tags, messages containing all selected tags will be filtered.

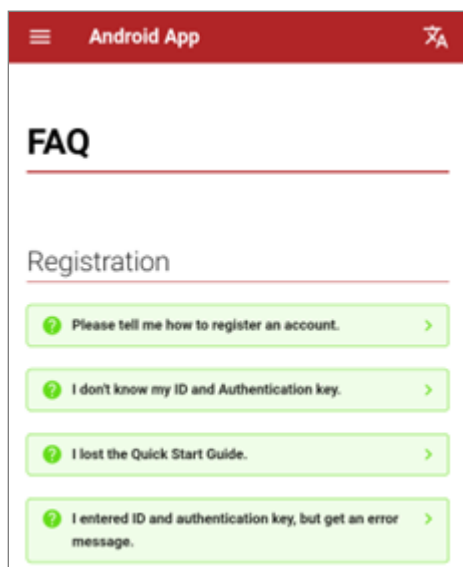

\* You can also search for messages by combining word search and tag search.

#### ⑥ Language

Displays translations in the selected language.

## ⑦ Help

Tap to go to the FAQ screen.

## ⑧ Refresh

Tap it to update the message list.

## ⑨ Account/Menu

Tap it to register, confirm, or delete an account.

Tap User Site on the page to move to the Ocrenger User Site.

## ⑩ Option

Tap it to view options.

There are "form", "alcohol check", and "private delivery" for options.

## ⑪ BBS

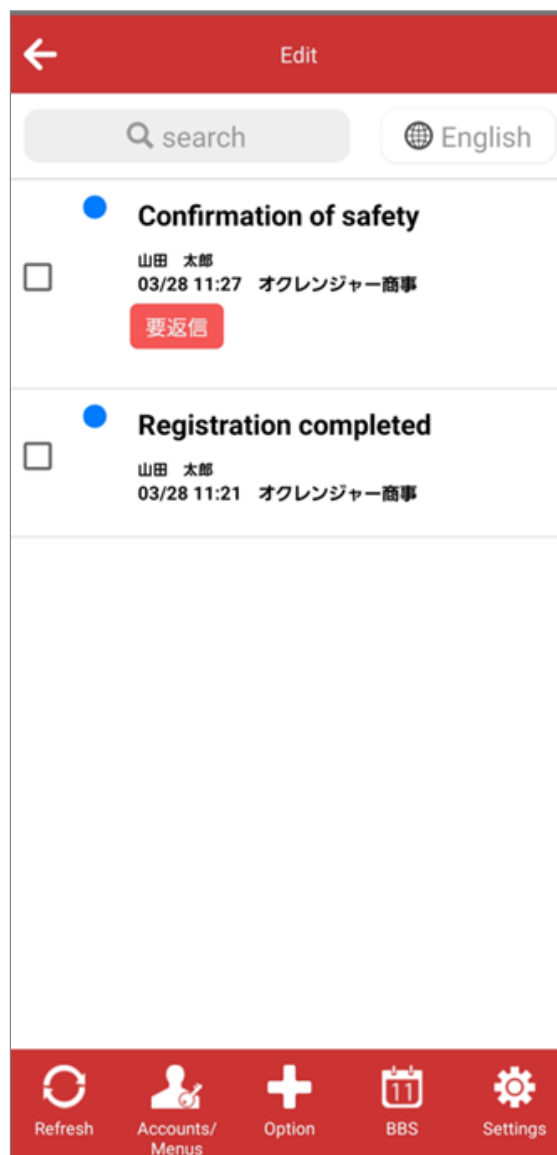

Tap it to view schedules/bulletin boards.

## ⑫ Settings (Please refer the page **Setup Page**)

Tap it to change settings of the app.

### If you want to edit messages

\* A long press on a message will reveal a checkbox.

Check the box to change the message status to Read, Unread, Protected, or Cancel protection. You can also delete selected messages from the Timeline (message list) by tapping delete.

\* Even if you change the message status to Read or Unread, the status shown on the Administration Site does not change.

\* Even if you select to protect some messages, you cannot read messages whose posting periods have expired or those that have been deleted by an administrator.

Only the subjects of the protected messages will remain in the Timeline (message list).

\* Deleted messages cannot be displayed in the Timeline (message list) again.

## 2.3.2 Setting and Switching of Default Browser

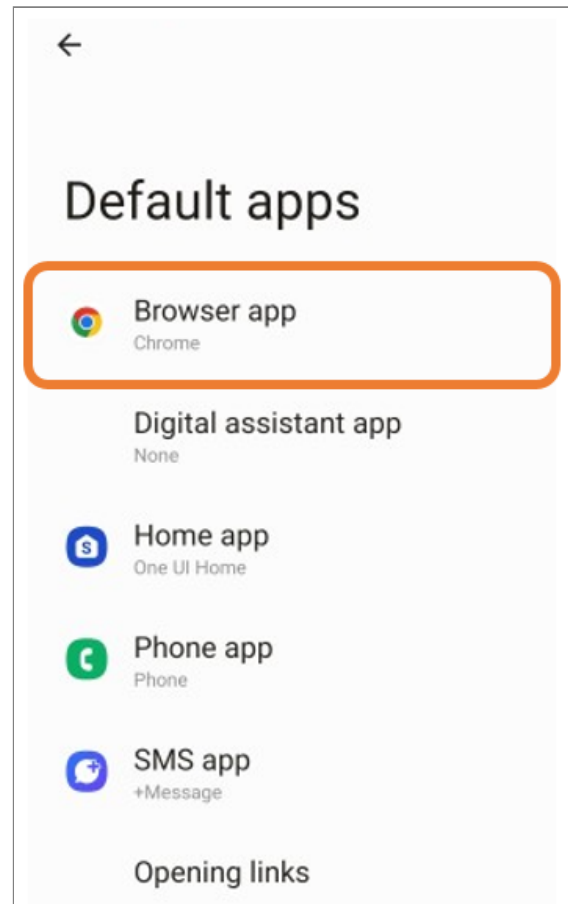

1. Tap "Apps" on your smartphone's setting.

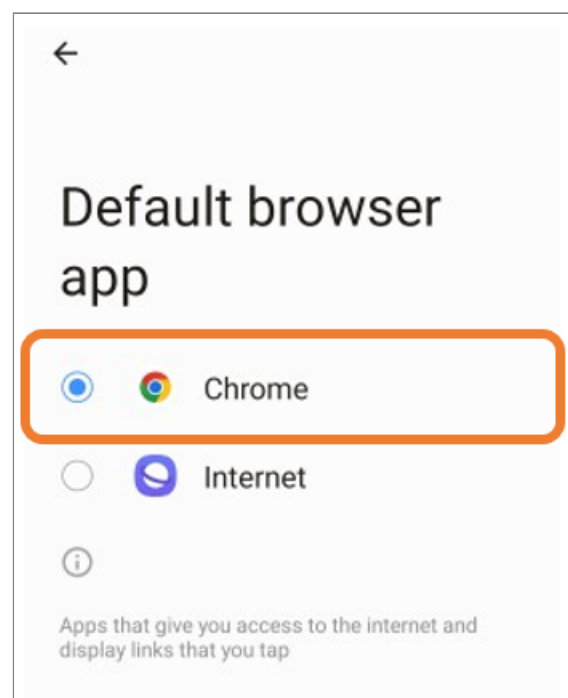

1. Tap "Choose default apps".

1. Tap "Browser app".

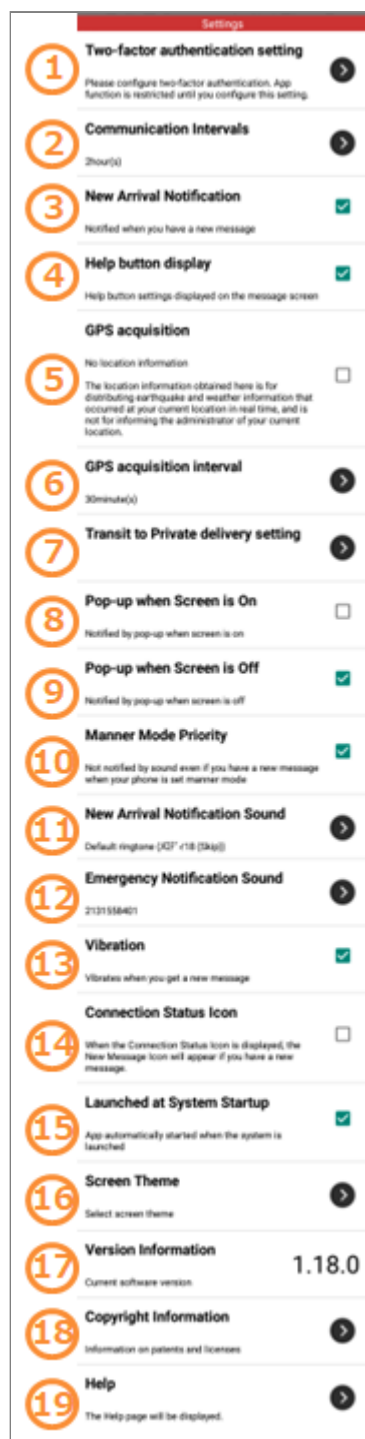

1. Choose browser that you want to set for default.

## 2.3.3 Setup Page

For Android 8.0 and below.

### ① Two-factor authentication setting

This can only be set when two-factor authentication is enabled.

### ② Communication intervals

Tap it to set intervals for checking message arrival.

### ③ New message notification

Check the box if you want to be notified of message arrival.

### ④ Help Button Display

Show/hide settings for timeline help buttons.

### ⑤ GPS acquisition

GPS functionality can be turned on or off only when the "Private Delivery Settings" option is enabled.

### ⑥ GPS acquisition interval

Setting the interval for acquiring GPS information.

### ⑦ Transit to Private Delivery Setting

Tap to go to the Private Delivery Settings screen.

### ⑧ Pop-up when the screen is on

Check the box if you want to be notified of message arrival by a pop-up when the screen is on.

### ⑨ Pop-up when the screen is off

Check the box if you want to be notified of message arrival by a pop-up when the screen is off.

### ⑩ Manner mode priority

When the box is checked and your mobile phone is set manner mode, you will not be notified of message arrival by a ringtone or a vibrating alert, regardless of your settings in ⑥ to ⑧.

### ⑪ New message notification sound

Tap it to select a ringtone notifying you of message arrival.

### ⑫ Emergency notification sound

Tap it to select a ringtone notifying you of emergency message arrival.

**⑬ Vibration**

Check the box if you want to be notified of message arrival by a vibrating alert.

**⑭ Connection Status Icon**

Check the box to display notification icons on the status bar of your smartphone. If you do not want the Connection Status Icon to be displayed, uncheck the box.

\* It is recommended, however, to keep the Connection Status Icon displayed so that you can readily check the connection status.

New Message Icon

The app has received a new message

Connection Status Icon

The app is connected to the server. This is the icon that is usually displayed on the status bar.

**⑮ Launched at System Startup**

When this box is checked, the app will automatically start when your smartphone is switched on even if you have quit the app before switching off your smartphone.

**⑯ Screen Theme**

Tap it to select a theme color for the app screen.

**⑰ Version information**

The version of the Ocranger app you are currently using. You can confirm the latest version at [Google Play](#).

**⑱ Copyright information**

Tap it to confirm the copyright information of the app.

**⑲ Help**

Check this page if you need any help with the operation of the Ocrenger App.

## 2.4 Change the app settings

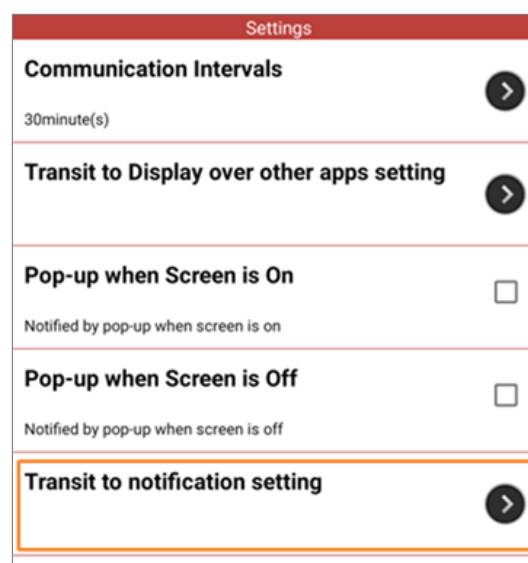

### 2.4.1 How to set up a notification settings

Notification settings cannot be changed in the app for devices running Android 8.0 and above. Please following steps to move to notification setting screen from "Transit to notification setting" and configure the notification settings. For other settings, please refer to the contents of "Setup Page".

1. Tap Settings.

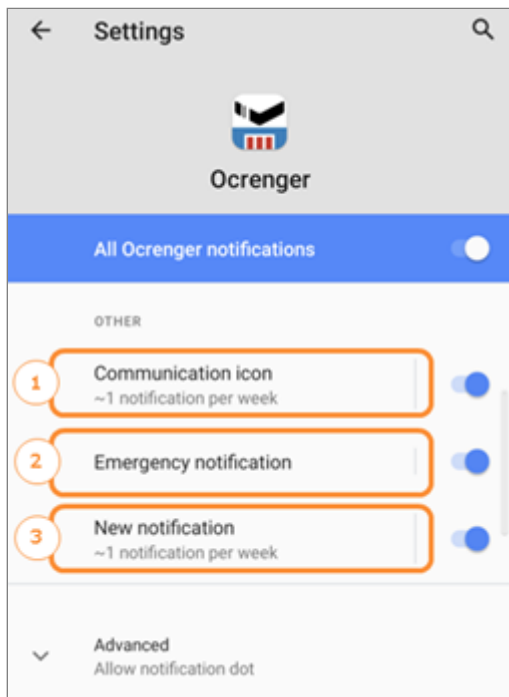

2. Tap "Transit to notification setting".

3. The ocrenger notification settings screen will be displayed.

\* The screen will vary depending on your device.

#### ① Communication icon

This is setting for the icon always displayed when app is running.

#### ② Emergency message

Notification settings for emergency messages.

#### ③ Notify new message

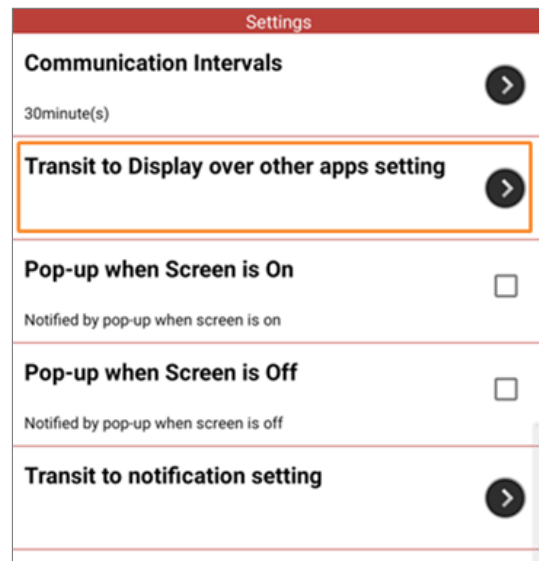

Notification settings for normal messages.

## 2.4.2 How to set up a pop-up display

### 1. Tap Settings.

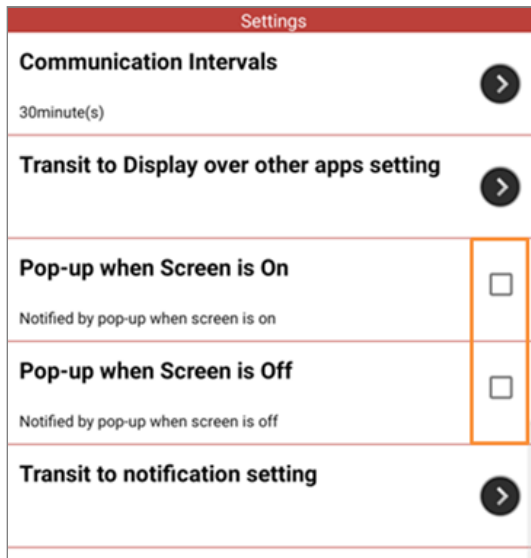

### 2. Tap "Transit to Display over other apps setting".

### 3. "Transit to Display over other apps setting" Please turn on.

### 4. Press "Display Pop-Ups when Screen ON" and "Display Pop-Ups when Screen OFF".

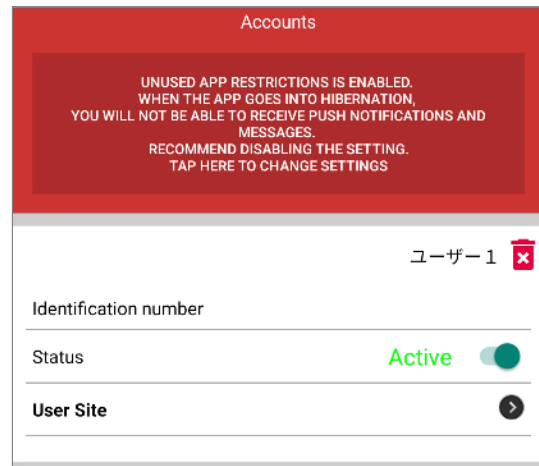

5. When the app has received a message, a pop-up will appear.

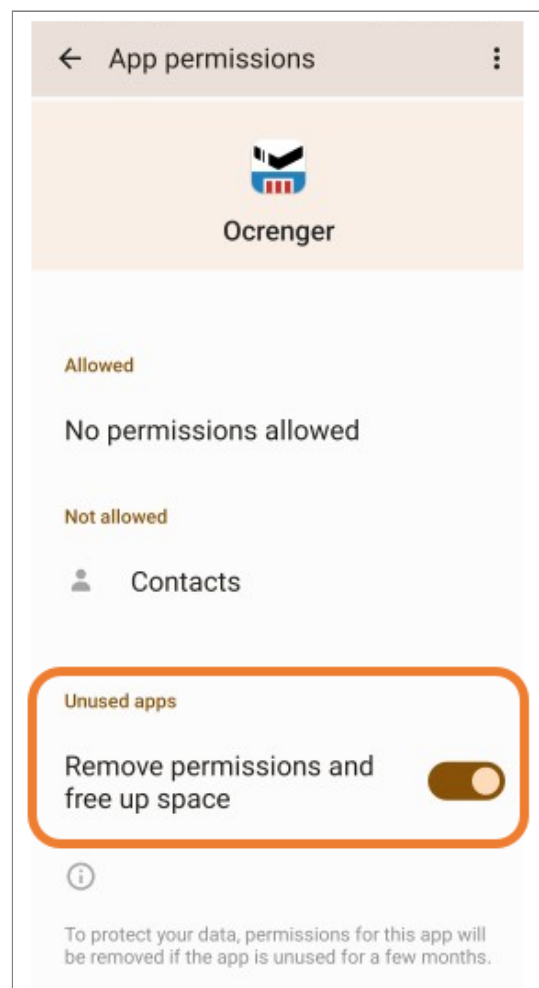

### 2.4.3 Disable "Unused App" function

The function to delete permissions and temporary data granted to an application when it has not been used for a long period of time. Since the deletion of data by this function may affect the reception of Push notifications/messages, it is recommended to disable.

1. After registering an account, a warning message will appear on the device has this function.  
Tap the warning message.

2. The settings screen will be displayed.  
Turn off "Unused Apps".

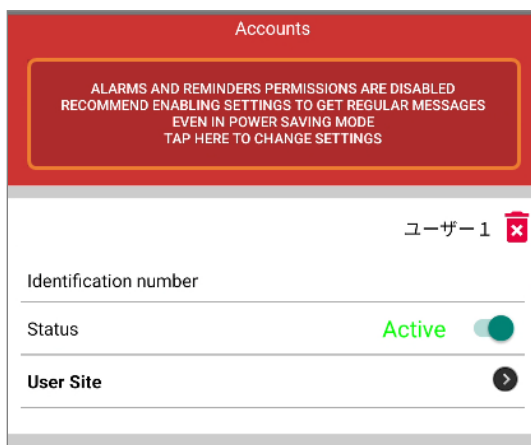

The image is in the activated state.  
The settings screen can be displayed from the OS settings screen -> Ocrenger as well as from the Warning dialog.

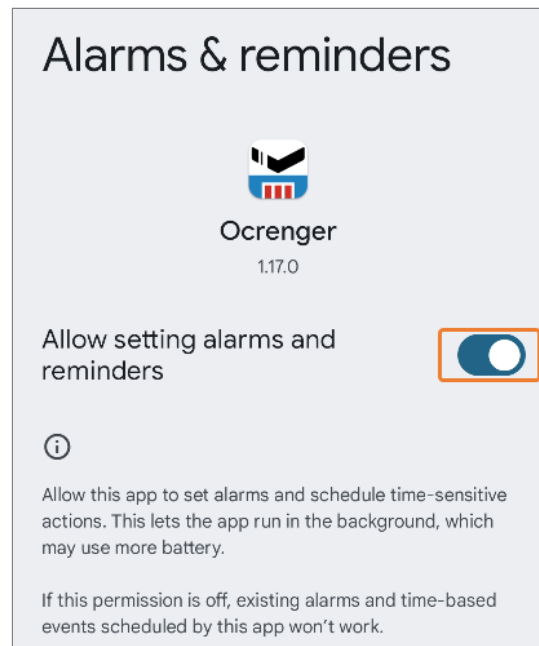

## 2.4.4 Enable "Alarms and Reminders" permission

This is a function to ensure that the app works properly even when it is not active. If this permission is disabled, it may affect background operation, so we recommend enabling it.

1. After registering an account, a warning message will be displayed on devices with OS versions that have the target function. Tap the warning message.

2. The settings screen will be displayed. Enable the "Alarms and Reminders" permission.

\*The settings screen can be displayed not only from the warning message, but also from the OS settings screen → Ocrenger.

## 3. How to Operate App (iOS)

### 3.1 Downloading App

#### 3.1.1 Downloading App at App Store

1. Enter "ocrenger" to search at App Store and download the app.  
 \* You need to have an Apple ID to download the app.  
 \* The app is free.

You can also go to the downloading page by reading the QR code.

App Store

#### 3.1.2 Updating App at App Store

1. Launch the App Store.

2. Tap "App" at the bottom of the App Store screen.

3. Tap the icon in the figure below at the top right of the screen.

4. The update app will appear. Tap "Update All" or "Update" to the right of the Ocrenger app. (If you don't see the Ocrenger app, try connecting again in a few hours)

5. When "Open" appears to the right of the Ocrenger app, the update is complete.

## 3.2 Manage account

### 3.2.1 Registration of Account

1. When downloading is complete, launch the app.

2. Confirm the details of the consent form and tap Agree.

ます。

Register for this service

6. After registering your information by selecting the relevant option in each box, tap Check Your Entries.  
\* Information to be entered differs depending on the service.

7. The page to confirm your entries will appear. Confirm the details and tap Register at the bottom of the screen.  
 \* If you need to correct any of the information, tap Modify.

8. After confirming the Terms of Use, tap Agree.

9. Your registration is complete when Active, the name of the service, etc. are displayed.

### 3.2.5 Registration of Additional Account

You can register multiple accounts in the app.

1. Tap Account/Menu in the app menu at the bottom of the screen.

2. Tap + at the upper right of the screen

3. Next steps, See [Registration of Account](#).

### 3.2.6 Deletion of Account

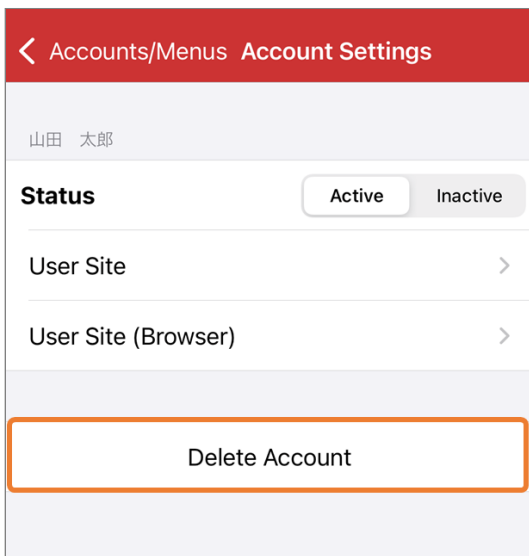

1. Tap Account/Menu in the app menu at the bottom of the screen.

2. Select the account you want to delete.

3. Tap Delete Account.

4. If you are sure to delete, tap OK. If you want to cancel deletion, tap Cancel.

5. Deletion of the account is complete if the account no longer appears on the Account/Menu page.

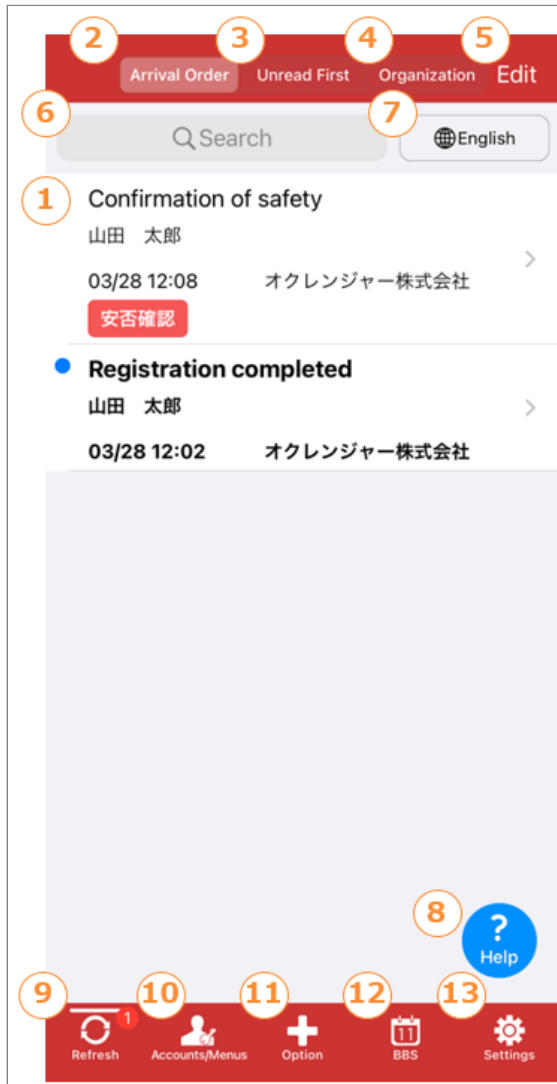

### 3.2.7 Invalidation of Account

1. Select Inactive to invalidate the account. The Ocrenger App will no longer receive messages to the account. Set it back to Active to validate the account.

## 3.3 Control item Description

### 3.3.1 Home Page

#### ① Timeline (message list)

A list of messages received is displayed.

\* Messages received after the registration on the phone of your account are displayed. To read messages delivered before registration, tap Account/Menu > User Site > Messages.

\* You cannot read messages whose posting periods have expired or that have been deleted by an administrator.

#### ② Arrival Order

Tap it to list the messages in the order of arrival.

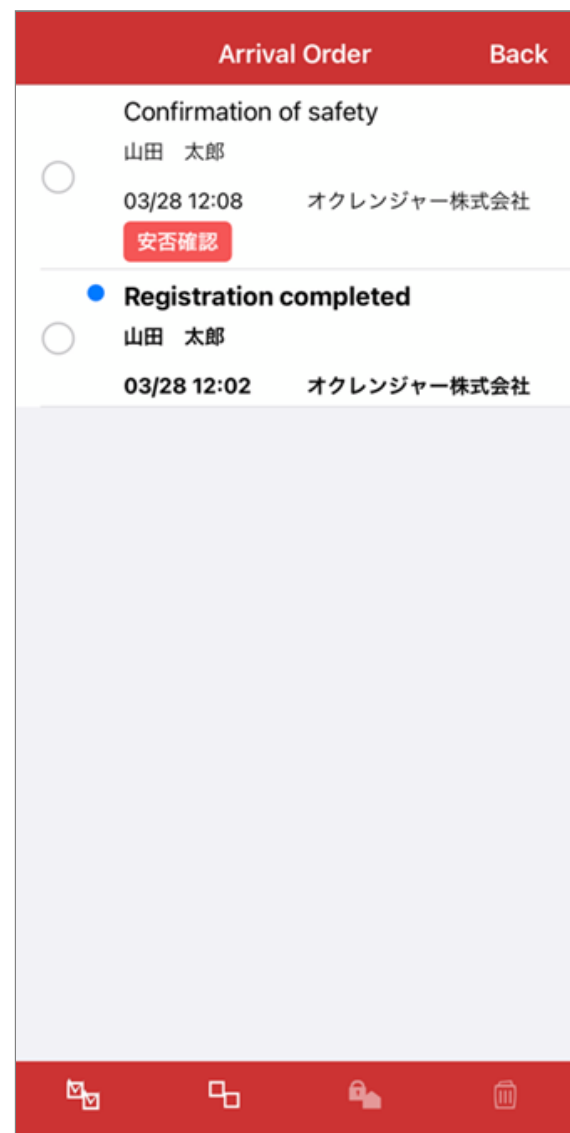

#### ③ Unread First

Tap it to list unread messages at the top of the list.

#### ④ Organization

Tap to read messages from a particular organization

#### ⑤ Edit

Check the box to change the message status to Read, Unread, Protected, or Cancel protection. You can also delete selected messages from the Timeline (message list) by tapping Delete. \* Even

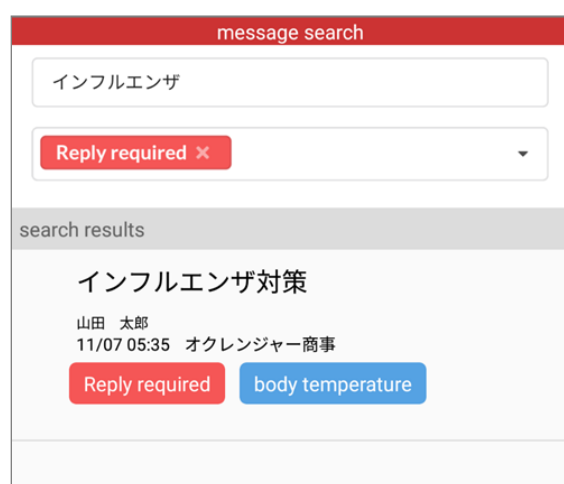

if you change the message status to Read or Unread, the status shown on the Administration Site does not change.

\* Even if you select to protect some messages, you cannot read messages whose posting periods have expired or those that have been deleted by an administrator. Only the subjects of the protected messages will remain in the Timeline (message list).

\* Deleted messages cannot be displayed in the Timeline (message list) again.

## ⑥ Message Search

Tap the button to display the search screen.

**Word** : Messages that contain the entered word in the subject, body, or attachment name will be displayed in the search results column.

**Tag** : Messages containing the selected tag will be displayed in the search results column.

\* If you select multiple tags, messages containing all selected tags will be filtered.

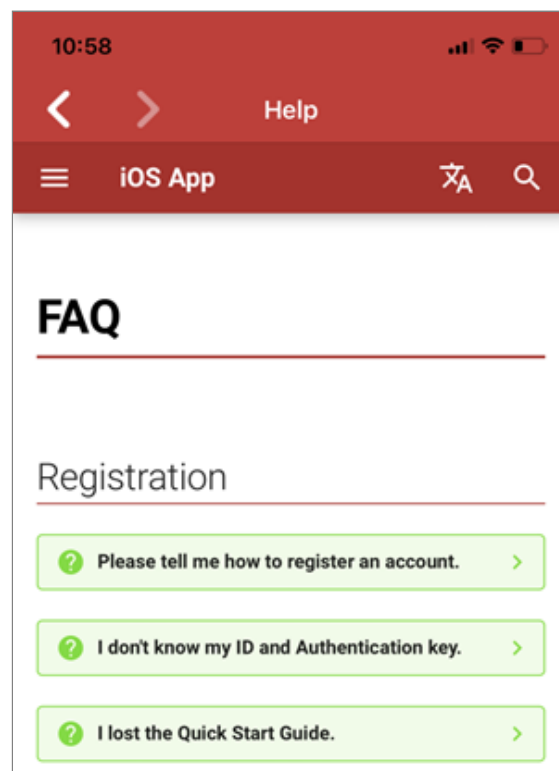

\* You can also search for messages by combining word search and tag search.

## ⑦ Language

Displays translations in the selected language.

## ⑧ Help

Tap to go to the FAQ screen.

## ⑨ Refresh

Tap it to update the message list.

## ⑩ Account/Menu

Tap it to register, confirm, or delete an account.

Tap User Site on the page to move to the Ocrenger User Site.

## ⑪ Option

Tap it to view options.

There are "form", "alcohol check", and "private delivery" for options.

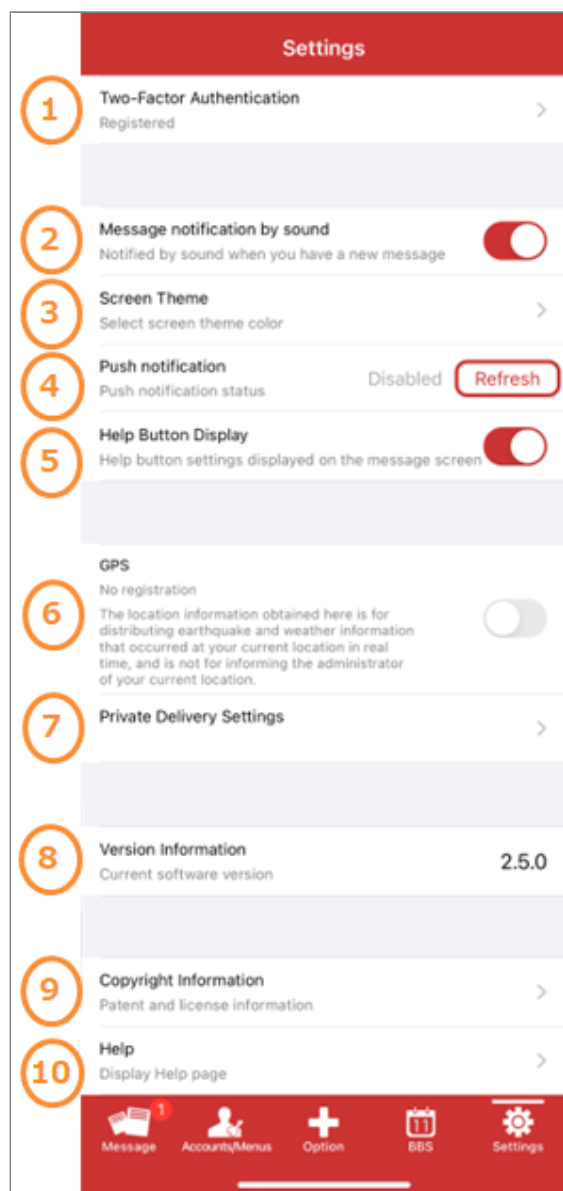

## ⑫ BBS

Tap it to view schedules/bulletin boards.

## ⑬ Settings(Please refer the page **Setup Page**)

Tap it to change settings of the app.

### 3.3.2 Setup Page

#### ① Two-factor authentication setting

This can only be set when two-factor authentication is enabled.

#### ② Message notification by sound

When this function is on (green means on), the

Ocrenger App will automatically check message arrival at the server when the app starts.

#### ③ Screen theme

Tap it to change theme colors of the app screen.

#### ④ Push notification

When this function is Active, you will be notified of message arrival even if you have not launched the app. When this function is Inactive, you will not be notified of the arrival of a message. Tap the refresh button displayed next to it, and follow the instructions in the message.

#### ⑤ Help Button Display

Show/hide settings for timeline help buttons.

#### ⑥ GPS

GPS functionality can be turned on or off only when the "Private Delivery Settings" option is enabled.

#### ⑦ Private Delivery Settings

Tap to go to the Private Delivery Settings screen.

#### ⑧ Version information

The version of the Ocrenger app you are currently using. You can confirm the latest version at [App Store](#).

#### ⑨ Copyright information

Tap it to confirm the copyright information of the app.

#### ⑩ Help

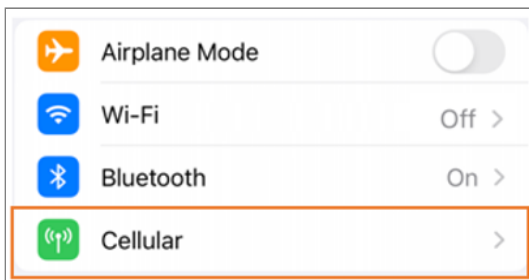

Check this page if you need help with the operation of the Ocrenger App.

## 3.4 Device Settings

### 3.4.1 Enable Cellular Data

If a communication error is displayed, “Cellular Data” may not be allowed. Please enable the Ocrenger app.

1. Launch Settings and tap Cellular.

2. Make sure cellular data is turned on. (If it is OFF, turn it ON)

3. Scroll down the screen and turn on Ocrenger in the list of mobile data communication applications.

## 4. Email Address Registration/Bookmarking

### 4.1 Introduction

Set up your smartphone as stated below, so that you can receive the notification of message arrival without fail.

\* You may not be able to receive notifications even if you do not use a email filter, so be sure to follow the procedure stated below.

Add “pasmail.jp” to the safe sender list of the email filter of your smartphone and cancel the function to reject emails including URLs.

As for details, visit our website at the URL below.

<https://www.ocrenger.jp/method/index.html>

### 4.2 Mail

#### 4.2.1 Registration of Email Address

1. Read the QR code, or enter “reg@pasmail.jp” in the addressee box and send a blank email.

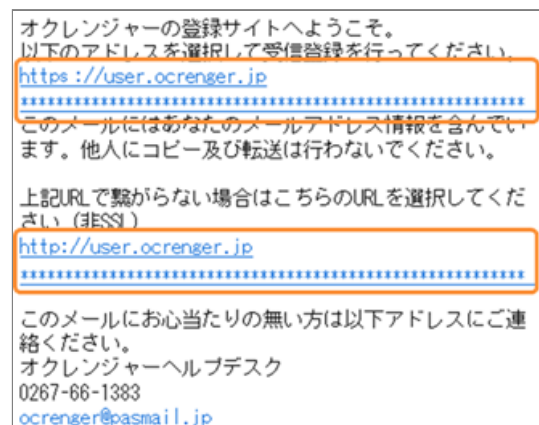

\* No need to enter a subject or text. If you cannot send a blank email, enter a character in the text box and send it.

\* Use your own smartphone to send a blank email so that your email address will be properly registered.

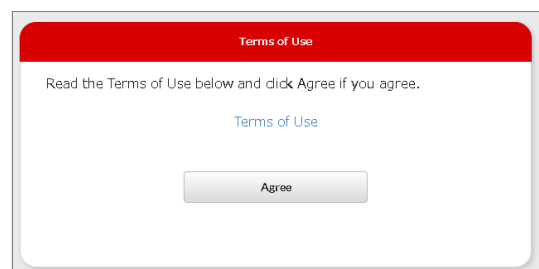

2. In about five minutes after sending a blank email, you will receive a reply. Tap the URL shown in the text to move to the Ocrenger User Site.

\* If your phone is not SSL compatible, tap the URL in the lower part of the message.

If you do not receive a reply in five minutes:  
The reply may have been blocked by the email filtering function of your smartphone. After changing the setting of your smartphone, go back to the first step of the procedure.

3. After confirming the Terms of Use, tap Agree.

4. Enter your ID , Authentication key and tap Log in.

Quick Start Guide

Send with location information Send

3. If seeing the following message, please select "Allow".
- \* The message will vary depending on your browser.

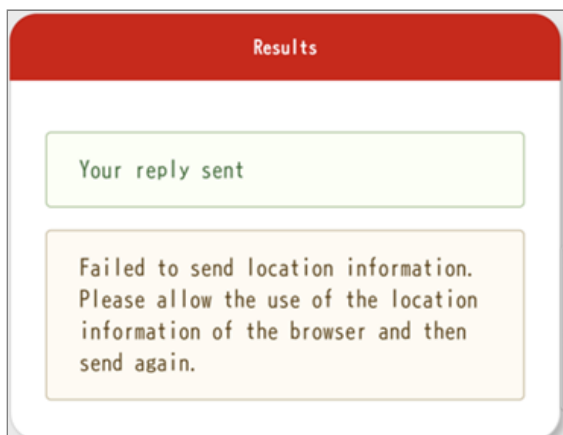

4. When the result is displayed, the answer is complete.

### When sending location information fails

The following message may appear and sending location information may fail. In such a case, you need to allow sending of location information.

## 5.3.2 If using Google Chrome (Android)

1. Click on  at the top of screen.

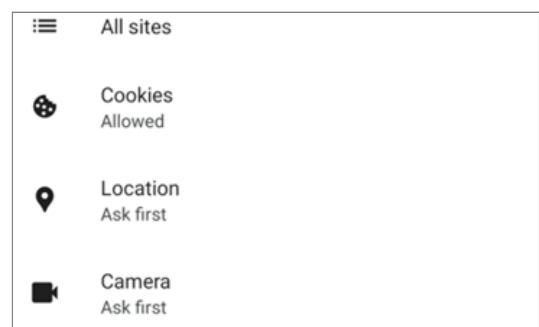

2. Tap Setting.

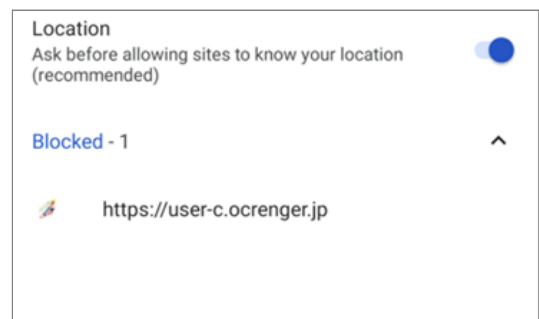

3. Tap Site settings.

4. Tap Location.

5. Select the ocrenger site (<https://user.ocrenger.jp>) that is blocked.

6. Select "Allow". The setting is now complete. Please open message again and press the "Send with location information button."

### 5.3.3 If using iOS

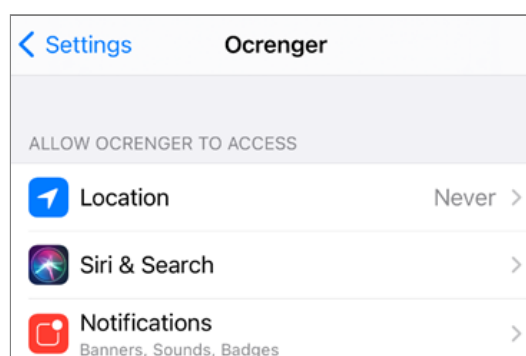

1. Press the Settings icon on your home screen.

2. Tap "Ocrenger".

3. Tap "Location".

4. Tap "While Using the App".

The setting is now complete. Please open message again and press the "Send with location information button."

## 5.4 Anonymous message

The administrator cannot determine that the content of your response is yours. You must set a passcode on your first response.

### 5.4.1 Answering to anonymous messages

1. Please select and enter your answer in the response field of the message and Tap send.

2. The screen for setting and entering the passcode is displayed. **At this step, the answering has not yet been completed.**

When the first answer (passcode not set)  
Enter the passcode you want to set in the passcode field and the confirmation passcode field, and press "Send".

\* Please enter the passcode using 4 to 100 single-byte alphanumeric characters.

\* Please note that the set passcode cannot be confirmed or changed later.

When the answer modify (passcode has been set)

Enter the passcode you set when you answered for the first time in the passcode field and press "Send".

3. The answer will be sent and the completion screen will be displayed. This completes the

send.

Anonymous messages do not allow you to see the answer with normal access. When you check the answer, please access from the URL displayed on this screen.

#### ① Anonymous message URL for confirming the content of the reply

You can check your answer by accessing the displayed URL. You can skip entering the passcode when modifying your answer.

#### ② Copy

Copy the URL of ① to the clipboard of your terminal.

#### ③ Send e-mail

The URL of ① will be sent to the registered e-mail address.

\* If you have not registered your e-mail address, it will not be displayed.

#### ④ Send application

Send the URL of ① to the Ocrenger app you are using.

\* If you are not using the Ocrenger app, it will not be displayed.

## 5.5 Message status

### 5.5.1 Answered message

Details of your answers and the reply time will be shown below an answered message. If necessary, you can overwrite your answers and send the overwritten answers by tapping Send. Anonymous messages cannot be confirmed by the access method on this page. If you would like to see the answer, please refer to page 30.

### 9.1.3 Checking Bulletin Boards (Email)

If you have registered your email address, you will receive emails to notify you of the posting of new bulletin boards.

\* If the administrator or another user has selected not to notify the posting of a particular bulletin board, you will not be notified of the posting of the bulletin board.

Tap the URL in the message to check schedules.

1. If you have an email notifying you of bulletin board posting, tap one of the URLs in the message to get connected to the Internet.

\* If you don't have such an email, log in to the Ocrenger User Site.

\* If your phone is not SSL compatible, tap the URL in the lower part of the message.

## 9.2 Posting Comment on Bulletin Board

You can post a free comment if the bulletin board has Post Comment at the bottom.

You can also attach up to one JPG, PDF, Excel, Word, PowerPoint, txt and/or Movie(avi, mp4, mov, wmv, mkv ) file (up to 100 MB).

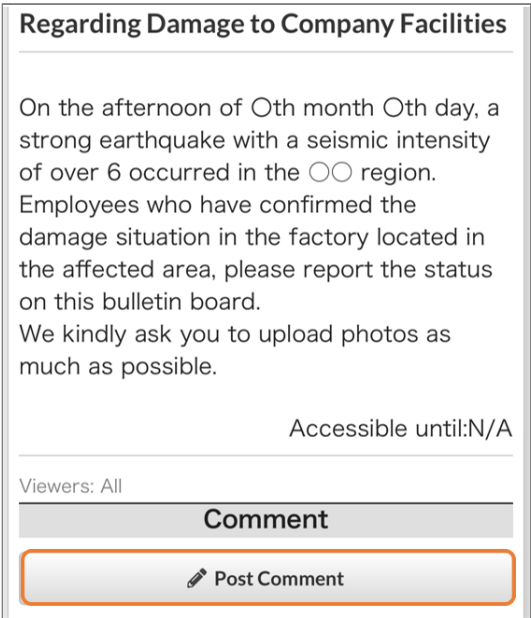

- \* You cannot post a comment if the bulletin board does not have a Post Comment button.
- \* The file formats that can be attached and viewed depend upon the type of your phone. It is recommended that you use a computer to attach and view files.
- \* Video files may not be previewed depending on the browser.
- \* Please make sure the "About video Preview" link for details.

### 9.2.1 Posting Comment

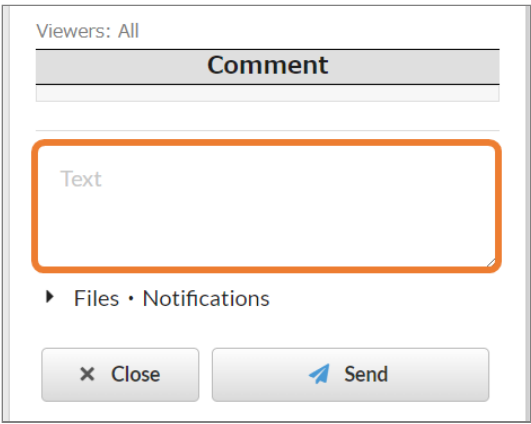

1. Open the relevant bulletin board (Please refer the page [Checking Bulletin Board](#)). Tap Post Comment below the message.

### 9.2.1 Posting Comment

- 1. Open the relevant bulletin board (Please refer the page [Checking Bulletin Board](#)). Tap Post Comment below the message.

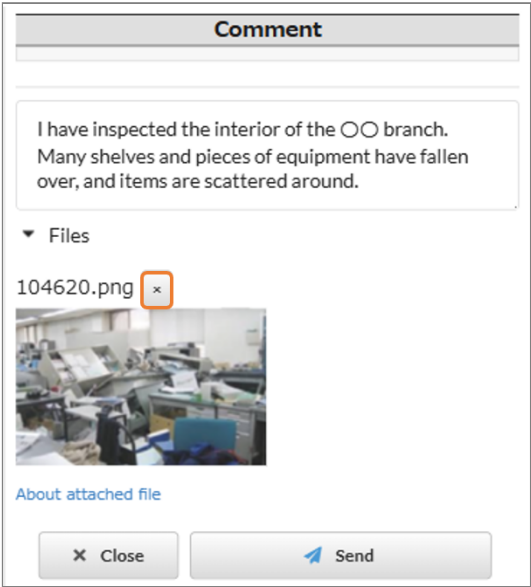

- 2. The comment entry field will appear. Enter your comment.

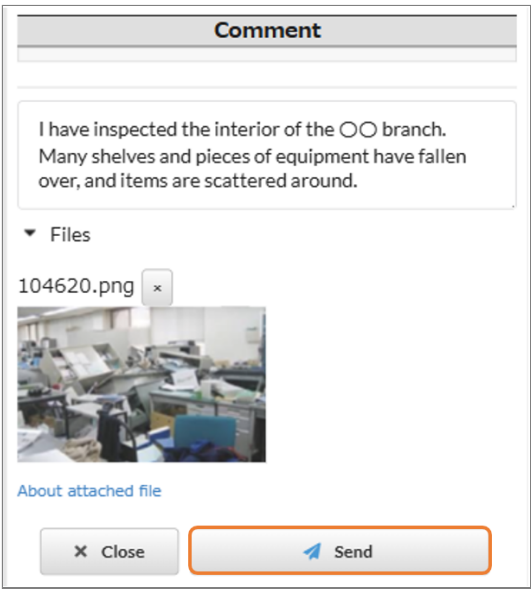

- 3. If you want to attach files, tap Choose File to select files.

Tap × to delete a file, if necessary.

- 4. Tap Send when you have finished writing a comment.

- 5. The posting of your comment is complete when your comment appears on the screen.

### 9.2.2 Reply to a Comment on the Bulletin Board

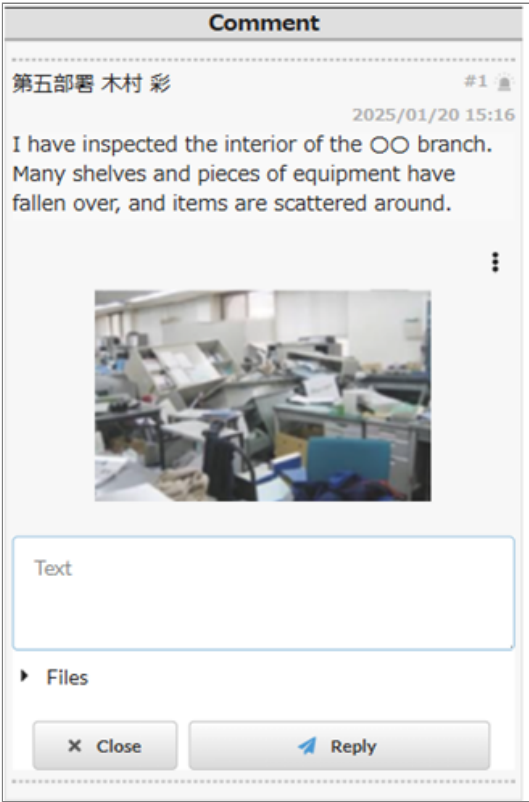

1. Open the menu of the comment you want to reply to.

2. Click on "Post Reply" in the menu.

3. A reply input screen will appear. Please enter your message.

4. If you want to attach a file like posting a comment, click "Attach File" and select the file

you wish to attach.

## 9.2.3 Pin a Comment on the Bulletin Board

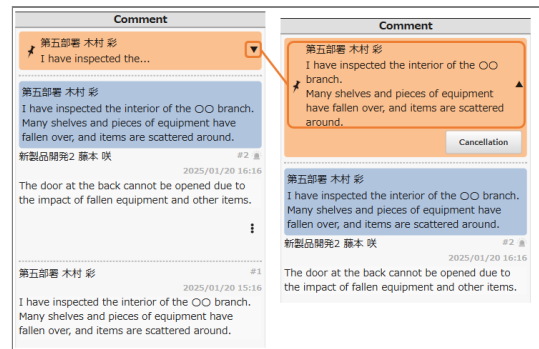

1. Open the menu of the comment you want to pin.

2. Click on "Fixed" in the menu.

3. The selected comment will be pinned to the top of the comment section.  
If the text is long, you can click ▼ to display the full text.

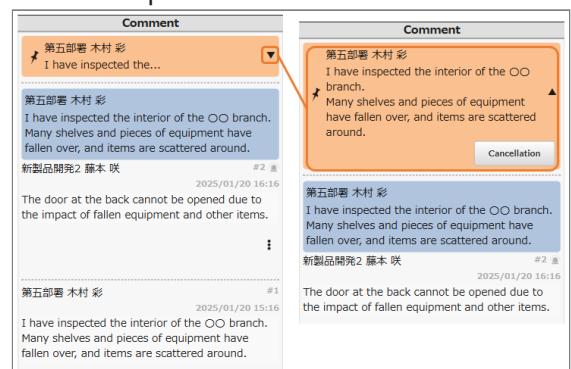

\*If there are multiple pinned comments, clicking "View other announcements" will display all pinned comments.

## 9.2.4 Unpin a Comment on the Bulletin Board

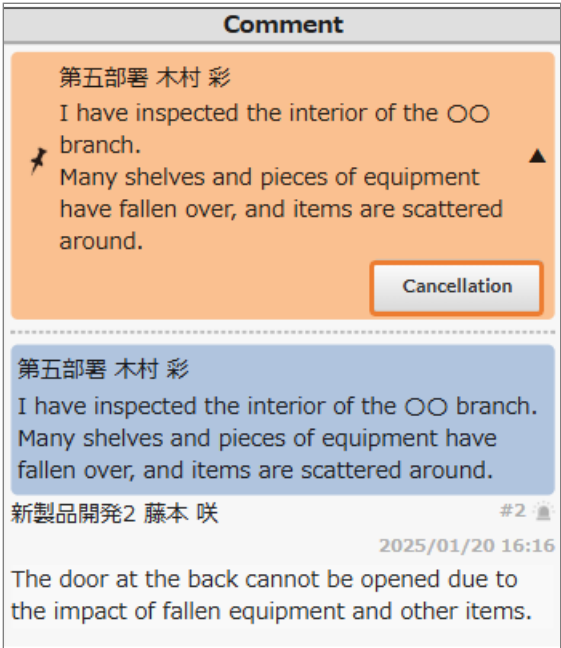

\* Only administrators and the user who originally pinned the comment can unpin it.

1. Click on the ▼ of the pinned comment you want to unpin.

2. Click "Cancellation".

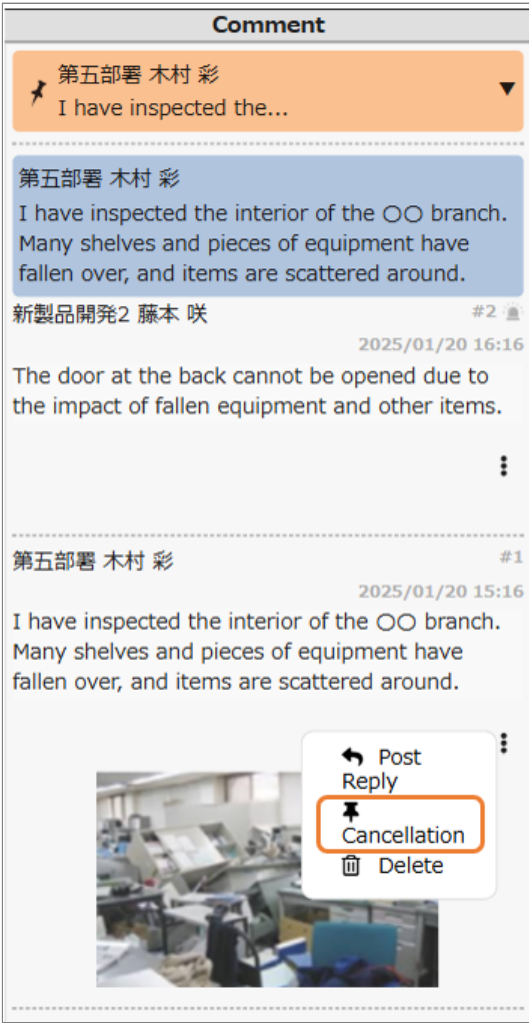

1. The comment will be unpinned from the top of the comments section.

\* You can also unpin by pressing "Unpin" from the menu of the original comment that was

pinned.

## 9.2.5 Deleting comment

You can delete only your own comments.

\* The person who has created the bulletin board is authorized to delete any comment.

1. Please open the menu for the comment you want to delete.

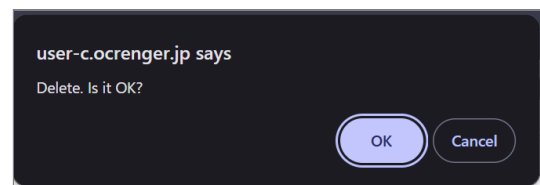

2. Click "Delete".

3. Click "OK" to execute deletion.

\* Click "Cancel" to cancel deletion.

## 10. How to set up

### 10.1 Setup

#### 10.1.1 Select Language

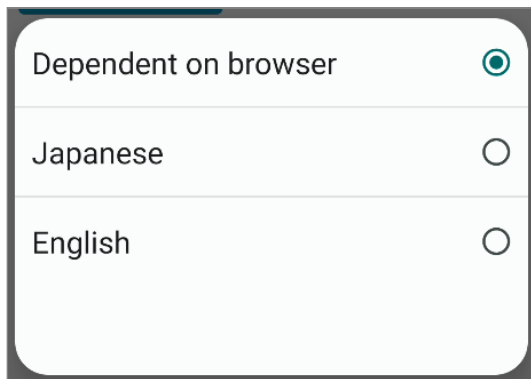

1. After logging in to the Ocrenger User Site, tap Registration Status/Settings in the User Menu.

2. Tap the box below Language.

3. Select your language.

4. Tap Apply to reflect the change.  
\* If you select Dependent on browser, log out and log in again to reflect the language.

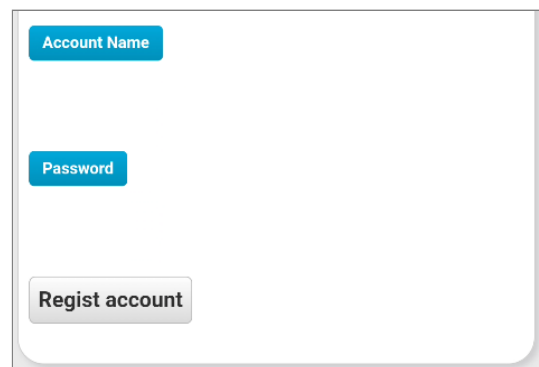

#### 10.1.2 Creation an account

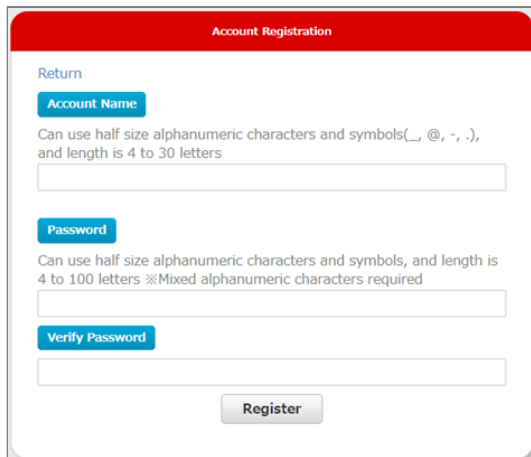

1. Press Change in the "Registration Status/Settings" screen.

2. Tap Register account, the "Account Registration" screen will appear.

3. Please register your Account Name and Password.  
\* The Account Name can be used from the Web Login screen.  
\* Use ocrenger ID/Authentication Key for the app."

**Account Registration**

[Return](#)

**Account Name**  
Can use half size alphanumeric characters and symbols( \_ , @ , - , . ), and length is 4 to 30 letters

**Password**

☒ SSL

**Delete** **Send test**

3. Tap "Yes" on the confirmation screen to cancel the email address.

**Delete Email Address**

Are you sure you want to delete a\*\*\*\*\*@ocrenger.jp?

**Yes** **No**

### 10.1.5 Test delivery to registered email address

If the email address can be delivered

1. You can either send an email to the registered address or you can test it yourself.

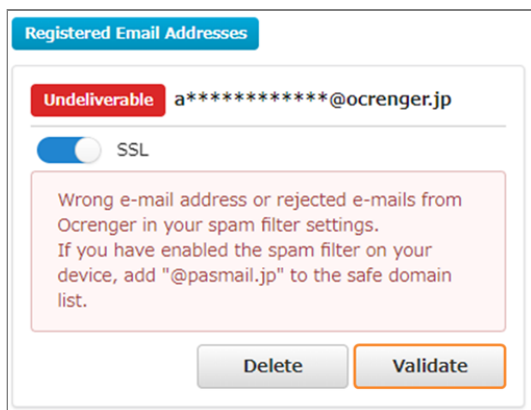

2. Click "Yes" on the confirmation screen to send the test email.

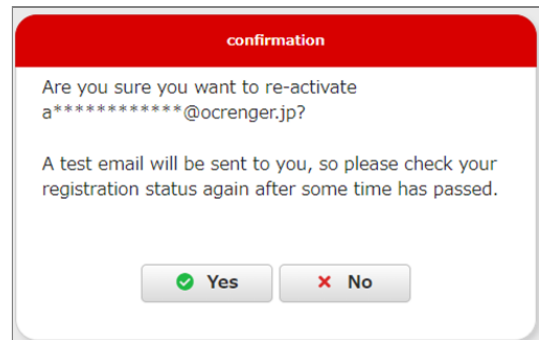

3. Make sure you have received the test email from the Ocrenger. If you do not receive the test email, it may have been sorted into your spam folder.

If the email address Undelivered

1. Please confirm the registered address, review the junk e-mail settings, and click "Validate".

2. Click "Yes" on the confirmation screen to send the test email.

3. Make sure you have received the test email from the Ocrenger.  
\* If you have rejected your e-mail due to an incorrect e-mail address or filter settings, the registered e-mail address may be in the status of "Undeliverable". In that case, please review your e-mail address and filter settings, and then click "Validate".

### 10.1.6 Set up two-factor authentication

If your organization is using two-factor authentication, you will be required to configure your authentication method.

Until the setup is complete, the features you can use will be limited.

After completion of the settings, if two-factor authentication is required, please authenticate using the method you have set up.

#### If you choose to set up your authentication method using a device passcode

This authentication method uses the passcode (such as facial recognition, fingerprint, numerical, or pattern) that you use to unlock your smartphone.

※ You can set this up if the device passcode on your device is enabled.

1. Please press the Two-factor authentication setting in the settings.
2. When the two-factor authentication setup screen appears, please select your Device passcode and press the SAVE button.

**Two-factor authentication setting**

Please select an authentication method and press the save button. Until the two-factor authentication setup is complete, available features will be limited.

**Authentication Method**

☒ **Device passcode**  
This is the passcode you use to unlock your smartphone (such as facial recognition, fingerprint, numbers, pattern, etc.).

☐ **One-time password** Destination not registered  
If you are using a one-time password via SMS or email address for authentication, please register the one-time password destination from the button below and verify that you can log in to the user interface.

**ADD THE DESTINATION FOR THE ONE-TIME PASSWORD**

**SAVE**

3. Once you receive the device passcode permission message, your setup is complete.

**Results**

Device passcode authentication is now available.

To enhance security, if you want to use device passcode authentication on multiple devices for the same account, you will need to authorize the device you are already using for authentication, or enter a reset password.

Please keep the reset password below safe, as you will need it when changing devices. We recommend taking a screenshot or writing it down.

Reset password: 00000000

We recommend keeping this because it contains the Reset password needed to reset your device passcode when changing devices or similar situations.

\* If you reset the device passcode, the passcodes for all devices registered under the same account will also be reset.

### When using a device passcode on multiple devices.

If set up on multiple devices, a caution notice will appear on the authentication method selection screen.

If you wish to use the device passcode, you must first submit a usage permission application for the device initially registered.

1. Please select the Device passcode and press the SAVE button.

**Two-factor authentication setting**

Please select an authentication method and press the save button. Until the two-factor authentication setup is complete, available features will be limited.

**Authentication Method**

☒ **Device passcode**  
This is the passcode you use to unlock your smartphone (such as facial recognition, fingerprint, numbers, pattern, etc.).

The account is registered on multiple devices. For security purposes, you will request permission to use the device passcode authentication on the device where it is already set up. Once approved, two-factor authentication using the device passcode will automatically become available.

If you have changed devices, you can enable two-factor authentication using the device passcode by entering the reset password obtained during the initial setup.

**ENTER THE RESET PASSWORD**

☐ **One-time password** Destination not registered  
If you are using a one-time password via SMS or email address for authentication, please register the one-time password destination from the button below and verify that you can log in to the user interface.

**SAVE**

2. The Device passcode authentication permission application will be sent to the device that was first registered.

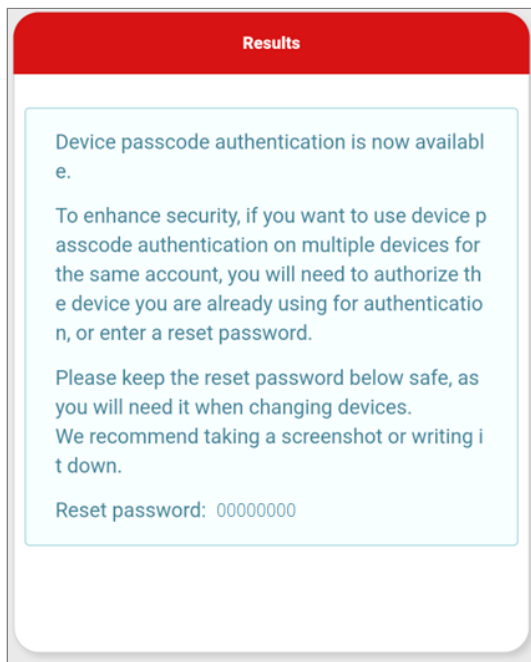

**Device passcode authentication permission application**

The following device has requested permission to use a device passcode for two-factor authentication.

If this is the case, please approve the request.

iPhone13,3 Allow Not allowed

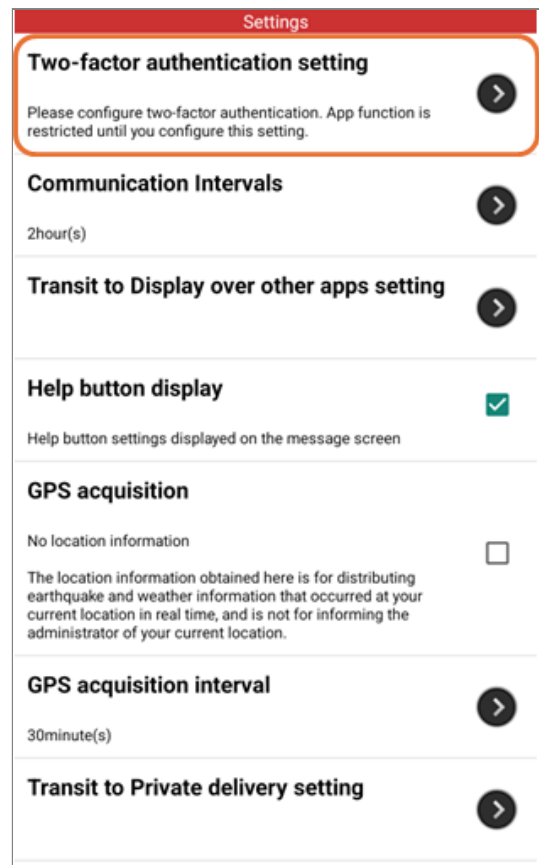

3. If the application is approved, a device passcode authorization message will be delivered to the applied device, allowing it to be used.

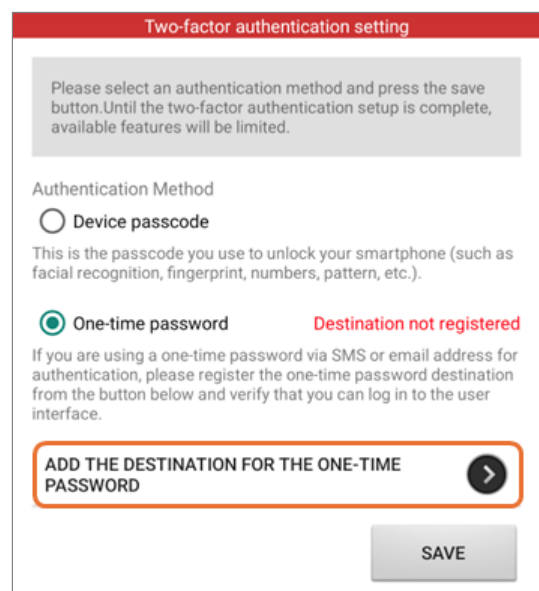

### When setting up the authentication method with a one-time password

This is an authentication method using a one-time password through SMS or email. If you choose to set up a one-time password as your authentication method, it is necessary to configure the destination for the one-time password using the button below.

1. Please press the Two-factor authentication setting in the settings.

2. The Two-factor authentication settings screen will appear, so please press to ADD THE DESTINATION FOR THE ONE-TIME PASSWORD.

3. The screen to Add One Time Password Destination will be displayed.
